

Dear All After Greetings,

I submit a complaint to you about my damages from several things in my previous work as a community liaison officer in the solar energy project in Benban. Among these things:-

- 1- The arbitrary dismissal that took place about 14 months ago, and I submitted several complaints to the Association of Solar Investors in Benban due to the company forcing the workers to sign work contracts devoid of any data. His destiny is such a chapter
- 2- The inequality in dealing with the masses, whether the old team since the days of [REDACTED] company until now, whether in salaries or means of transportation and others
- 3- Not taking into account the standards of the World Bank with regard to the societal part and several problems in society.
- 4- Complaints procedures and mechanisms
- 5- The actual salary differs from what is assumed and documented by them I have sent you some documents and documents related to my complaint and I am ready to provide you with any details.

Thank you for your patience and waiting for your kind reply

Best Regards,

[REDACTED]
